

Instructor Observation

Instructor: Quinn Briggs

Observer: Brett Amidan

Class: CSE 272 Software Lifecycle Models

Date/Time: 11/8/22 3:15 pm

Observed areas:

| | |
|--|--|
| Creating an environment of respect and rapport | Organized slides and clear instructions for the upcoming assignments Accepting of all comments, even when they are not on the right track; students are comfortable participating |
| Establishing a culture for learning | Referring to readings assigned for the class |
| Communicating with Students | Chatted with the students before class started |
| Using Questioning & Discussion techniques | Listed questions on the slides to help the discussion |
| Engaging Students in Learning | In first 10 minutes, 10 of 18 have contributed to the discussion By halfway, all but a few students have contributed to the discussion. |
| Using Assessment in Instruction | The questions are used to assess their understanding. When the students are unable to answer, he brings up those concepts that help answer the question. |
