

# Instructor Observation

Instructor: Quinn Briggs

Observer: Brett Amidan

Class: CSE 170 Technical Teamwork

Date/Time: 6/3/2024 11:30 am

## Observed areas:

Creating an environment of respect and rapport	Nice discussion about your introduced quote.
Establishing a culture for learning	Gave the class time to decide how to respond and discuss. The silence allowed students to gather their thoughts.
Communicating with Students	Nice agenda at the beginning, so students knew what was happening for the day.
Using Questioning & Discussion techniques	Breaking students into groups and having each table lead a discussion is a great idea. Students took charge of it and did well.
Engaging Students in Learning	Gave each table a slide to look at and discuss and then came back to discuss as a class.
Using Assessment in Instruction	

Great job! First 11 minutes spiritual thought, announcements, and welcome. 5 minutes going over the assignments over the next 2 weeks. Students spent 5 minutes discussing their slide. Good idea to set a timer. 12 minutes discussing each slide with the full class. Last 27 minutes the groups worked together on their tasks.
